

## Using Genetic Resource Data for Breeding The G2P-SOL Advanced Training School II

ONLINE  
14:00 - 17:00  
CEST  
DAILY

October 11-13, 2021

Breeding Solanaceae Fruit:  
EGGPLANT, PEPPER AND TOMATO

### **GIOVANNI GIULIANO**

**Giovanni Giuliano** is Research Director and member of the board of directors at ENEA (the Italian National Agency for New Technologies, Energy and Sustainable Development). He holds a Ph.D. in Plant Biology from the University of Pisa and did postdoctoral studies at the Cold Spring Harbor Laboratory and the University of Pennsylvania. He is co-author of >100 papers on international journals and 5 patents ([scholar.google.it/citations?user=Yp9Iny4AAAAJ](https://scholar.google.it/citations?user=Yp9Iny4AAAAJ)), mainly in the fields of plant genomics and (apo) carotenoid biosynthesis. He received several awards, including the Science award by the Italian Ministry of Culture and organized several conferences, including the 2018 Gordon Conference on Carotenoids. He is presently coordinating the EU-funded research project "Linking genetic resources, genomes and phenotypes of Solanaceous crops (G2P-SOL)".
