Breeding Solanaceae Fruit:  
EGGPLANT, PEPPER AND TOMATO

### ***DEREK W. BARCHENGER***

**Derek W. Barchenger** is the Pepper Breeder at the World Vegetable Center, based in Taiwan. The goal of the breeding program is the development of multiple abiotic and biotic stress tolerance cultivars of pepper targeting tropical and subtropical regions of Asia, Africa, and Latin America. Prior to his appointment as Pepper Breeder, Derek was a Postdoctoral Scientist and a US Borlaug Fellow in Global Food Security at WorldVeg. Derek's research focus is studying the mechanisms of biotic and abiotic stress tolerance and resistance and moving resistance into adapted backgrounds.
