Breeding Solanaceae Fruit:
EGGPLANT, PEPPER AND TOMATO

LORENZO BARCHI

Lorenzo Barchi is an Associate Professor in Plant Genetics at the University of Torino, Department of Agricultural, Forest and Food Sciences.

His research interests are focused on genomics and transcriptomics in vegetables (mainly eggplant and pepper) through the use of Next-Generation Sequencing technologies and bioinformatics tools. Further activities deal with the development of linkage maps and QTL analyses using both bi-parental crossing populations and genome wide association mapping approach.
