

## Using Genetic Resource Data for Breeding The G2P-SOL Advanced Training School II

ONLINE  
14:00 - 17:00  
CEST  
DAILY

October 11-13, 2021

Breeding Solanaceae Fruit:  
EGGPLANT, PEPPER AND TOMATO

### **MARIOLA PONZAS**

**Mariola Plazas** is a Postdoctoral Researcher at the Polytechnic University of Valencia and at the Institute of Molecular and Cellular Biology of Plants "Primo Yúfera" both situated in Valencia, Spain. Her research interests are mainly focused on the study of the utilization of crop wild relatives to solanaceous crops for genetic improvement for biotic stress, quality traits and adaptation to climate change. During the last years she has been an Associate lecturer in the subjects of the degree in Biotechnology at the UPV "Molecular Genetics" and "Plant genetic improvement" and in the master's degree in Plant Genetic Improvement managed by the Valencian Institute for the Conservation and Improvement of Agrodiversity (COMAV).
