Breeding Solanaceae Fruit:
EGGPLANT, PEPPER AND TOMATO

SOPHIA ZEBELL

Sophia Zebell is a postdoc in Zach Lippman's group at Cold Spring Harbor Laboratory, where she focuses on improving the predictability of gene expression by understanding the relationship between *cis*-regulatory variation and *trans* factor binding in the regulation of quantitative traits. She obtained her PhD in Biology from Duke University, where she worked in the lab of Xinnian Dong studying transcriptional regulation of programmed cell death during the plant immune response.
